Dear Mr. Weisberg:

It was a great pleasure meeting you in New York. Your book shows a monumental job of research and investigation on your part. The results will long plague those who thought Warren's Report closed the problem forever.

Your handling of the Radio Show was brilliant. You well heeded my warning and stopped Long John in his tracks time and again - along with the surprisingly dull famous author and the loud but unconvincing "attorney for the defense."

I tried to tape the show on my Ampex - and never dreamed it would run on all night! I fell asleep somewhere between 2 and 3 a. m. ! Now I must try to put together the reels and test it all, maybe cutting out the long commercials, then try to copy it off for you. Sorry I couldn't last through it - when did it end?

Enclosed is a check for \$40 for the Bibliography you mentioned. Did you bill and get paid for copies delivered? If not, please enclose bill.

The N. Y. TIMES review was not good. How are your other reviews and especially how is the book selling?

Any nibble now for a regular publisher to take over?
Any magazine offers?

By all means keep exposing yourself to all TV, Radio, and speeches. Don't change your style at all - it's excellent. You came through better than any of the other participants in style. In subject matter you were devastating.

My attorney friend, Bill Butler, is leaving in a few days for a busy trip to the Orient - and we haven't had an opportunity to get into the discussion we held in my office.

You were very kind to have George Meany's office let me have the JFK recording - hadn't seen it - and welcome it!

Let me know about your program - re JFK - and the best of luck to you!

Cordially,

Pennsylvania General Paper Corp.
